

# EVOLUTION™

The **forward thinking design** of the Ferris Evolution™ mower allows the operator to be placed in the **most ideal ergonomic position** to mow. The operator's back, shoulders and neck are aligned to minimize discomfort and fatigue. The operator's weight is evenly distributed providing **comfort throughout the day**. Integrated suspension technology heightens the riding experience and delivers **outstanding comfort and performance**.

*"We specifically purchased the Evolution™ mower for a commercial account with smaller areas to mow. We figured it'd be more productive than a walk-behind. Well, it has given us more than we expected. Because it is so fast and efficient we've also been using it to mow larger properties. Now the guys on the crew prefer to get on the Evolution™ mower over the typical zero-turns on our fleet."*

*Craig Pellington · Wayne, NJ*

### ENGINE GROUP

- 27 gross hp\*, 26 gross hp\*, 20 gross hp\* or 19 gross hp\* Kawasaki V-Twin engines
- Fuel capacity: 5-gallons (36", 48"); 7.5-gallons (52")
- Two-stage industrial air-cleaner
- Dual hydro pumps and wheel motors with standard transmission oil cooler
- Removable operator compartment for ease of maintenance
- Ground speed up to 10 mph and mows up to 4.3 acres per hour, based on 80% efficiency

### MOWER DECK

- Available in 36", 48" or 52" cutting widths
- iCD™ Cutting System on select models
- Cut height: 1.5" - 5" adjusts in 1/4" increments
- Features greaseable aluminum spindles

### SUSPENSION / CHASSIS

- Pivoting front axle, patent pending suspended operator platform

### OPERATOR SYSTEMS

- Operator is placed in the most ideal ergonomic position
- Operator's back, shoulders and neck are aligned to minimize discomfort and fatigue
- Operator's weight is evenly distributed providing longer comfort throughout the day
- Integrated suspension technology heightens the riding experience and delivers supreme comfort and performance
- Flat-free caster tires standard

### ACCESSORIES

- Mulch Kit (48", 52"), Grass Catcher

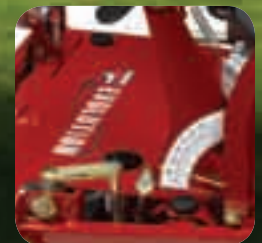

Operator is placed in the ideal ergonomic position to mow.

The patent pending operator forward design places the operator in the most ideal ergonomic position for a long day of mowing.

The operator has full view and reach of the easy-to-use controls. Push both handles to move forward, left and right to turn, and pull both handles back for reverse.

The Ferris Evolution™ mower features an easy-to-use deck lift system. Simply crank the deck lift lever to your desired cutting height. A convenient transport lever makes lifting the entire deck quick and easy.

Fit more units on your trailer. (16ft. trailer shown)

Easy handling and maneuvering.

Fit into tight places with the compact size of the Evolution™ mower.
