

HydroCut™

The HydroCut™ series is in a class by itself. The single hydrostatic transmission found on the HydroCut™ makes this mower extremely easy to operate. It offers many productivity enhancing features including Integrated Comfort Controls (ICC) for simple maneuvering and Quick-Adjust height-of-cut controls. Available in 32" and 36" cutting widths, this machine can tackle tight places and tight budgets too.

ENGINE GROUP

- 16 gross hp* Kawasaki V-Twin engine
- Rugged 5-gallon fuel tank with extra large filler neck
- Hydrostatic transmission is more efficient and productive than gear-drive mowers
- Electric start standard on all models
- Ground speed up to 5.5 mph and mows up to 1.7 acres per hour, based on 80% efficiency

MOWER DECK

- Available in 32" or 36" cutting widths
- Cut height: 1.5"- 4.5" variable adjust
- Quick-adjust variable height-of-cut control is fast and easy
- Exclusive Torque Tuned Blade™ system (36" model)
- Features greaseable aluminum spindles for longer usable life

OPERATOR SYSTEMS

- Integrated Comfort Controls (ICC) are user-friendly and can be operated with just one hand
- No tracking adjustment required

ACCESSORIES

- Grass Catcher, Mulch Kit

The convenience of electric start is a standard feature.

Quick-adjust height-of-cut indicator ensures consistent results.

Integrated Comfort Controls (ICC) are thumb operated. No need to take your hands off the handlebars to adjust speed or direction, forward & backward. So simple to use it can be operated with just one hand!

Exclusive Torque Tuned Blade™ system enables the mower to be more compact which allows the machine to be more maneuverable and easy to handle. (36" model)

21" Commercial Walk-Behind

Designed for the serious professional who demands the ultimate in performance and durability! More than just tough, these commercial walk-behind mowers also offer the precision and power to increase productivity and lower operating costs.

ENGINE GROUP

- FJ180V* Kawasaki V-Twin or GXV160* Honda engine choices
- Fuel Capacity: 2.1 Qts.
- Spin-on oil filter (Kawasaki models)
- Easy to operate self-propelled control
- Ground speed up to 4 mph

MOWER DECK

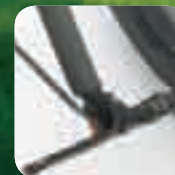

- Available in a 21" cutting width
- Heavy-duty 14-gauge steel deck
- Cut height: 1.25" - 4", adjusts in 7-positions
- Mulching system (standard on FCRP model)
- Full length solid steel axle

OPERATOR SYSTEMS

- Comfortable foam handle grips
- Console with cup-holder
- Easy-to-empty 2.5 bushel bagging system (standard on FCP models)

ACCESSORIES

- Mulching Kit, Grass Catcher, Side Discharge

Easy to operate self-propelled control.

Features rugged 8-inch front steel wheels with ball bearings and 10-inch rear steel wheels.

Disc drive delivers more of the engine's power directly to the drive wheels. It's the ultimate in reliable performance and because it eliminates complicated clutches, it offers easy serviceability. The automotive style smooth-turn differential makes turning smooth and easy.

The Power to Perform - The powerful Kawasaki FJ180V overhead valve engine provides plenty of power for efficient mulching and features pressurized lubrication and a spin-on oil filter.
